

AN HOUR WITH **GEORGE GALDORISI**

TUESDAY, MAY 10
11 A.M. WINN ROOM

Join author George Galdorisi as he speaks about his newest book, AI at War. This book is the first to deal with the military and naval application of AI in a comprehensive and pragmatic fashion. It presents the widest possible viewpoints on the actual (as opposed to theoretical) use of AI in war and will appeal to all interested in this subject. Attendees will walk away understanding more about how big data, artificial intelligence and machine learning have the potential to change warfare as profoundly as the invention of gunpowder.

Head to cplevents.org or scan the code for more information. This talk will be recorded and available for on-demand viewing on the Library's Facebook and YouTube pages following the event.
